## Our Model

At Eyonic Systems we are dedicated to simplifying technology. Our services are a great value because they are flexible and provide on-demand scalability.

We offer responsive technology services for people and businesses saving them time and money.

Our Carbon Footprint

To lower the environmental impact while still providing stable cloud services, a solar photovoltaic solution was implemented in September 2012 to offset energy utilization.

The amount of power supplied by solar is:

A list of our services include:

- Business Infrastructure
- Drive Destruction
- Cloud Backup
- Vulnerability Assessments

Managed IT & Cloud Services

Cloud Backup For Servers

Keeping an eye on IT essentials.®

Eyonic Systems Cloud Backup Server Plan provides our customers with a cloud based, disaster preparedness data backup service.

Our goal is to provide a service that is easy to set up and use, and runs automatically as scheduled to prevent data loss while freeing up staff time and saving money.

File & Print Servers:

* Compatible with Windows Server 2016, 2012 and 2008 R2 and 2008.

* Connect up to 20 devices to a small business account, or an enterprise account for plans supporting more than 20 devices.

* Desktops, laptops, and NAS devices can also be backed up.

* Multiple jobs can run at the same time on different devices, or jobs can be spread out to reduce network impact.

Email & Database Servers

* Snapshots prevent interruption and allow all in-use databases and applications to continue to run normally.

* Backups are application aware so they support Active Directory, Exchange and SQL by notifying applications to flush their transactional logs which can otherwise grow exponentially.

* Enterprise plans allow unlimited devices to connect.

* Backup email servers running Windows Exchange 2016, 2013, 2010 and 2007.

* Backup database servers running SQL 2017, 2016, 2014, 2012, 2008.

We provide discounts to non-profit organizations as well as educational institutions, both public and private.

For information on these discounts, contact us at (855) 439-6642, ext. 1.

All Plans Include:

* Audit reporting.

* Unlimited daily bandwidth usage.

* Files transfer using 256-bit data encryption.

* Ability to schedule backup and restore jobs.

* File versioning via the data retention settings.

* Ability to backup in-use, open, and system files using snapshots.

* Access to view, restore, and download files 24/7.

* View and download backed up files from devices without installing the client software.

* Centralized interface to manage jobs, devices, scheduling, users, and storage for all devices.

For additional information about either of these plans, visit our website at: https://eyonic.com/1/?K.
